DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 8 paragraph 2 and page 9 paragraph 1, filed 16 December 2008, with respect to claims 1 and 12 have been fully considered and are persuasive. The rejection of claims 1 and 12 on 5 September 2008 has been withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Hefti et al. US 2003/0040004 A1 (*Hefti*).

Regarding claim 15, Hefti teaches a sensing apparatus comprising:

A substrate **130**;

A transmission line (**122**, **124**, or **126**) provided on the substrate for propagating an electromagnetic wave therethrough; and

A detection unit **132** for detecting propagation state of the electromagnetic wave at an arbitrary location (**132a** or **132b**) on the transmission line,

Wherein an interaction between an object disposed on the transmission line and the electromagnetic wave is detected (§0031).

Allowable Subject Matter

Claims 1-9 and 11-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 12 as amended are considered allowable over the prior since the prior art does not disclose or reasonably suggest, along with the other claimed limitations, a sensing apparatus comprising: namely a transmission line for propagating an electromagnetic wave therethrough, wherein the transmission line has a resonance structure for confining the propagating electromagnetic wave and the resonance structure comprises *a distributed reflective region having a periodic structure*.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
